Uladzislau Pitsukha

Frontend Developer

💬 Summary

I am a frontend developer, specializing in JavaScript, TypeScript, React, Next.js and modern web development stack (HTML & CSS, JavaScript, Git, SCSS, Tailwind CSS, REST/GraphQL). I can create fast, adaptive and convenient interfaces, work with modern style, creative animation and optimization performance.

I am looking for a team where I can apply and develop my skills, participate in the creation of interesting products and grow up as a developer. Ready for remote or hybrid work.

🗄 Work History

2024-01 - present

Frontend Developer

Upwork, Warsaw

- Engaged in the creation of modern and effective web applications usingTypeScript, React and Next.js.
- Participate in the development of SPA, SSR applications, admin panels, dashboards, landings, e-commerce platforms, as well as well as design systems and interactive interfaces.

2022-09 - 2023-07
